

LEONARD & SANDY SARGENT EVST GRADUATE FELLOW

2010-11

Jonathan Leiman

Jonathan Leiman is an environmental consultant for ENVIRON International Corporation. He has experience in environmental science and water resource management, with an emphasis in the areas of aquatic ecosystem analysis and stream bioassessments, fisheries science, natural resource dispute resolution, and the development and implementation of ecological data management schemes. His work at ENVIRON has included projects under the direction of Section 316(b) of the Clean Water Act as well as various state and federal programs related to pollution discharge permitting and site-remediation.

In 2013, he began a two-year term on the American Water Works Association's Young Professionals Committee, which actively pursues the advancement of students and younger professions in the water industry.

Previously, he worked as a laboratory technician at the University of Montana Watershed Health Clinic and as a field biologist for the Montana Department of Environmental Quality.

Jonathan earned his BS in natural resources from Cornell University and a MS in environmental science from the University of Montana.
